

JOHNS HOPKINS CAREY BUSINESS SCHOOL EXECUTIVE MBA PROGRAM OVERVIEW

The Executive MBA program is designed for high-potential senior managers who have extensive work experience in their professional areas and seek to enrich their academic and professional background with a formal MBA training and understanding of the global business setting. This 18-month MBA program is guided by the principle of belief in adaptability, change and growth. The program is delivered in a format that will meet the needs of full-time working business executives.

This unique program has an integrated and strategic emphasis that incorporates many recently-initiated innovations in business education at the Johns Hopkins Carey Business School. The curriculum presents business concepts in a way that breaks down traditional functional silos and promotes more integrated framing of business issues. Each course stresses practical application of concepts through examples, case studies, and best-practice presentations (from specially selected practitioners) that highlight how the most innovative firms are addressing the complex challenges of a rapidly globalizing world economy.

Beyond courses that cover core business concepts, the curriculum features special topics sessions and advanced seminar courses to give students a sophisticated grasp of contemporary regional and globally relevant business practice. MBA candidates work in teams on course assignments during the residential sessions.

The candidates for the Executive MBA program are drawn from around the world and are connected by a common desire to accelerate their careers into the top ranks of their companies. Students are selected and recommended by their companies, which will demonstrate a strong support and commitment to MBA candidates' professional growth and investment of their time and energy to complete the program requirements.
