Carey Global MBA courses are designed to provide a solid foundation in business best practices—a balanced mix of core studies, theory, ethics, and entrepreneurship. Global MBA students take classes in a cohort format and working collaboratively with peers from different backgrounds and cultures to master and apply new skills.

The Johns Hopkins Carey Business School is accredited by the Association to Advance Collegiate Schools of Business (AACSB), the world’s leading authority on the quality assurance of business school programs.

Carey.jhu.edu
In keeping with Carey’s commitment to a truly international educational experience, Global MBA students consult with business and community leaders both in the U.S. and in developing countries.

During their first semester, and prior to the consulting trip, students learn about the culture, history, and political and economic challenges of the region they will visit so they are prepared to add immediate value when they arrive.

In each country, they work with local entrepreneurs to recommend improvements or solve important business challenges in infrastructure, public health, or other areas of critical need. After completing the residency, students make formal presentations of their assessments and business recommendations.

An interactive and collaborative learning experience that culminates in a three-week, in-country residency.

HIGHLIGHTS OF THE INNOVATION FOR HUMANITY EXPERIENCE

- Use business learning, individual skills, and collaborative thinking to gain valuable experience and tackle real-life challenges.
- Course includes an intensive three-week residency.
- Participate in small team project planning, data analysis, and reporting.
Through the Discovery to Market (D2M) course of the Global MBA program, launched in 2010, teams of Carey students collaborate with each other and Johns Hopkins University researchers, physicians, engineers, public health experts, and others in the public sector. D2M, as the course is popularly known, takes place over two terms in the spring of year one. During the course, students are assigned projects and conduct extensive feasibility studies to determine if, and how, the inventions can be launched commercially.

**HIGHLIGHTS OF THE DISCOVERY TO MARKET EXPERIENCE**

- Collaborate with inventors, scientists, and entrepreneurs to transform a scientific discovery into a viable commercial enterprise.
- Engage with fellow students and faculty from other schools within the Johns Hopkins community to assess the value of new discoveries and innovative technologies.
- Develop a detailed plan for bringing discoveries to market.

**DISCOVERY TO MARKET**

This entrepreneurial course gives Global MBA students the opportunity to participate in transforming a scientific discovery into a viable commercial enterprise.
93
Full-time faculty for the 2017–2018 academic year.

World-Class Faculty

Two Bloomberg Distinguished Professors

Kathleen Sutcliffe, Management and Organization expert, with appointments to Carey and the School of Medicine.

Paul Ferraro, Economist, with appointments to Carey, the Whiting School of Engineering, and the Bloomberg School of Public Health.

The professorships were introduced in 2014 and made possible by a $350 million gift from JHU alumnus and former New York City mayor Michael Bloomberg. Their aim is to promote interdisciplinary scholarship across Johns Hopkins University.

Exceptional Minds

Carey Business School faculty members are highly respected and rated academics, teachers, and business professionals. All have the sense of business design that can envision processes and improvements. Their vision invigorates business research and intellectual capital.

Connect with Top Minds in Your Field

An internationally renowned, interdisciplinary research community. Carey Business School faculty focus on creating, applying, and sharing fundamental knowledge that global business leaders use to define and solve business problems.

Interdisciplinary Research

Committed to research that pushes the boundaries of business knowledge. Carey faculty maintain a collaborative environment not just within projects at Carey, but also within initiatives that team our faculty with researchers from across Johns Hopkins University.
CAREER DEVELOPMENT

Career Development Office prepares students and alumni to meet the demands of a global marketplace. We actively encourage individuals to consider how they can use their strengths to impact their communities and improve the world. To accomplish this goal, we are committed to helping students and alumni develop the following core competencies through our coaching and education programs.

DIVERSITY INITIATIVE
At the Carey Business School, we believe great societies are diverse. While diversity is implicit in our mission, our values, and our founding principles, it is also explicit in our actions.

The Carey Business School has a history of developing underrepresented business leaders, and providing them with the business acumen, leadership skills, support, and mentoring they need to launch or advance a successful career.

Attracting underrepresented students to the Carey Business School is an essential step toward achieving our goals. To compete in an aggressive market for the best students, the Carey Business School has forged relationships with specific pipeline programs such as InRoads, Jumpstart Advisory, and the Forté Foundation. Carey has also launched an annual diversity weekend for prospective students to learn more about the school and prepare for business education.
