

LEADERSHIP IN ACTION

Be a force for change in your organization.

The Leadership in Action experience isn't about learning new theories. It's about taking new actions. Imagine gaining the insight, resolve, and strategy to tackle even one of these questions...

- Where is the gap between where you are and where you aim to be?
- What organizational struggle keeps you up at night?
- What work do you continue to avoid because quick fixes don't seem to help?

Leadership in Action and its immersive experiential approach will allow you to do deep work, learn from the other, and gain significant traction on your own challenges. This is not about simulations. It's about real progress on real issues that will help you grow as a person so you can move your organization forward. It's about starting to transform your capability to act powerfully and courageously in your life, in your work, and in the world.

Enhance your leadership skills with this experiential session on leadership and change. Bring your sense of adventure, some stomach for disequilibrium and your ability to stay open to what's happening "in the moment."

FACULTY

Adriano Pianesi has 20 years of leadership development, team coaching, and change experience built on capacity development, possibility thinking, and sound strategy.
