Social and societal impact

Concentration of larger builders leads to less new housing

Luis Quintero uncovers a driving force behind the decline in new housing construction: a concentration of large builders. Read more about the housing industry.

Innovation and technology

Malpractice concerns impact physician decisions to consult AI

AI-assisted technologies are making inroads into nearly every aspect of life, but Tinglong Dai and Shubhranshu Singh are exploring reasons why some doctors are resisting. Read more about AI use in health care.

Business of health

Cash or copay?

Insurance is supposed to help make health care bills more bearable, but Ge Bai finds that’s not always the case. Read more about health care costs.
