For the complete list of online primer recordings, visit carey.jhu.edu/SSC and navigate to “resources”.
Accounting
In this workshop, you’ll gain familiarity with basic accounting language and concepts and start practicing basic book keeping skills. It is designed for those who have either never taken an accounting course or to refresh basic accounting skills. *Particularly useful for those enrolled in Accounting and Financial Reporting.*

Corporate Finance
This session will introduce you to basic concepts, measures, and models used in corporate finance. *It is specifically designed for those enrolled in Corporate Finance.*

Economics
This session will introduce you to basic concepts, measures, and models used in micro and macroeconomics. *It is specifically designed for those enrolled in Economics for Decision Making and The Firm & Macroeconomy.*

Investments I and II
During these sessions you’ll gain an understanding of the basic language and concepts to be covered in the Investments course. It is designed for those who have never taken an investments course and as a refresher for those who did. In Part I, You’ll gain an understanding of risk & return, time value of money, risk aversion and portfolio allocation. In Part II, capital asset pricing model, efficient market theory, fixed income, and derivatives will be covered. Overall, you’ll gain an understanding of market efficiency, learn to measure risk and performance, and apply the principles of portfolio allocation. *You do not need to sign up for both Part I and II. You may attend Part II without having attended Part I.*

Statistics
This session will provide a foundation for and a review of basic concepts on the purpose, use and importance of being statistically literate. The types of data, measures of central tendency and dispersion will be covered along with symbols used in statistics and the concept of the normal distribution. It is designed for those who may not have strong analytical backgrounds or those who have not used quantitative formulas for some time. *Particularly useful for those enrolled in Statistical Analysis.*

U.S. Press
This session introduces the U.S. press and explains its relationship to business, especially publicly traded companies who use the press to publish information in compliance with Securities and Exchange Commission rules. Students from a country without a free press would benefit from this class. Other students will benefit if they are unsure of how the press works or what a press release is. *Particularly helpful for those enrolled in Business Communication.*
