Executive Certificate in Health Care Leadership and Management:

Leading with Impact

Expand your leadership potential, manage teams more effectively and lead with confidence. In this innovative certificate program, participants learn essential leadership and management skills, and develop an evidence-based understanding of how to lead for highly reliable performance in the health care environment—all while earning continuing education credits.

Share knowledge, strategic insight, and cutting-edge research with world-class faculty at the Johns Hopkins Carey Business School, Armstrong Institute of Patient Safety and Quality, and the School of Medicine. Develop personal leadership skills that will inspire transformation in teams and across departments. Leverage diversity in experience, expertise, and work styles. Establish frameworks for understanding dynamic organizations and create tools to become a better leader in the rapidly changing health care setting. With innovative guest speakers, real world simulations and practical case studies, the Executive Certificate in Health Care Leadership and Management will provide an individualized leadership path to drive the necessary change within your healthcare environment.

New this spring, Executive Coaching has been added to the program agenda. We design, implement and facilitate an experience that includes one-on-one coaching. Meeting with an Executive Coach will strengthen and extend your Carey Business School Executive Education experience. It will give you time to reflect on your coursework and sharpen your awareness of your own unique leadership skills and abilities. You’ll get constructive feedback in a supportive environment and a concrete action plan for continuing your development as a leader and getting results in your organization.

WHO SHOULD ATTEND

Health Care professionals, including physicians, researchers, nursing leaders, policy makers, pharmacists and health care managers who want to lead with impact and drive innovation in their health care organization.

LOCATION

Johns Hopkins Carey Business School
100 International Drive, Baltimore, MD 21202

KEY BENEFITS

Exposure to both rigorous research and real-world organizational cases.

Merge theory and evidence from management science with practical insight and experience from faculty and leaders working in health care settings.

Develop individualized frameworks used to guide actions when leading and managing change.

Explore basic principles of organizational design to execute strategy most effectively.

Conduct team leadership and organizational change simulations.
